

DEVOXX FRANCE 2023 **GUIDE**

Global Style guide

This Guide wasn't Actually made by an AI

For the moment...

A stylized illustration of a man on a bicycle at a street lamp during sunset. The man is wearing a brown jacket and a white mask, riding a black bicycle. He is positioned next to a tall, ornate street lamp with a single glowing light. The background is a vibrant sunset sky with orange, yellow, and red hues. In the distance, there are silhouettes of buildings and a body of water. The overall style is artistic and atmospheric.

Global TIPS

+ LESS THAN MORE !

Why less slides is better than more slides

- Devovx France runs on 3 days
- Audience loves live coding and demo
- Too much bullet points is super boring
- More text : less concentration from the audience that will just read your slides
- So this is exactly what you should not do

About **CODE**

BIGGER IS YOUR CODE, BETTER IS THE EXPLAIN

Show me shome code !

Try to keep a font size as big as possible. Remember also that too much code on one slide is useless. The audience reads this texte and does not listen to your presentation anymore. Try to split on different slides your presentation.

GLOBAL GUIDE

dark Or light

BIGGER IS YOUR CODE, BETTER IS THE EXPLAIN

Better dark to show code

You can choose dark mode or light mode presentation. We made the both mask for the slide. The main theme is globally in dark mode, its better for reading highlighting code. But you can use white background
